

CC Commander Essentials

Guided AI PM to Master Claude Code Instantly

70 plugin skills · 22 agents · 23 hooks

THE 13 /CCC-* SPECIALIST WORKFLOWS

<code>/ccc</code>	Main hub — detects project context, routes to 12 specialist workflows.
<code>/ccc-start</code>	First-run onboarding — detects setup, introduces 22 agent personas, drafts a start plan.
<code>/ccc-build</code>	Build web app, API, CLI, or mobile — spec interview routes to template, scaffolds.
<code>/ccc-review</code>	Audit branch, security posture, performance, or full x-ray — spawns matching specialist agent.
<code>/ccc-ship</code>	Pre-flight checks, cut a release, deploy, or rollback — runs test matrix in parallel.
<code>/ccc-plan</code>	Structured 3-5 question spec interview, delegates to planner agent in background.
<code>/ccc-design</code>	Click-first picker over 39 design skills — landing pages, components, polish, Figma→code.
<code>/ccc-learn</code>	Learning hub — click-first picker across 11 CCC domains (500+ skills).
<code>/ccc-xray</code>	Project health scorecard — 7 dimensions scanned, 0-100 scores + fix chips.
<code>/ccc-linear</code>	Linear board integration — view issues, pick one to work, or create tickets.
<code>/ccc-fleet</code>	Multi-agent orchestration — parallel Sonnet agents in git worktrees, fan out or pipeline.
<code>/ccc-connect</code>	Opt-in MCP connector setup — click-connect Notion, Slack, GitHub, Supabase, Figma, and more.
<code>/ccc-browse</code>	Filterable catalog of every skill, agent, and command — cascading detail cards.

NEW IN THIS RELEASE

<code>/ccc-orchestrate</code>	NEW Fable/Opus writes a goal file, GPT-5.5 or Sonnet executes, Fable/Opus verifies before done.
<code>/ccc-handoff</code>	NEW Proactive context reset — write a dense handoff file, start a new chat now.
<code>/ccc-adopt</code>	NEW Bring Orchestrator/Executor doctrine into an existing project — detects stack, merges CLAUDE.md.

ccc-design	39 skills — UI/UX, animation	ccc-devops	20 skills — CI/CD, infra
ccc-marketing	45 skills — CRO, content, SEO	ccc-seo	20 skills — technical + content SEO
ccc-saas	20 skills — auth, billing, schema	ccc-testing	15 skills — TDD, E2E, QA
ccc-security	8 skills — OWASP, secrets, audits	ccc-data	8 skills — pipelines, SQL, ML
ccc-research	8 skills — deep research, review	ccc-mobile	8 skills — RN, Flutter, SwiftUI
ccc-makeover	3 skills — x-ray, swarm, scorecard		

WHEN TO USE WHAT

Starting a new feature	/ccc-plan
Existing project wants CCC doctrine	/ccc-adopt
Context getting long, quality dropping	/ccc-handoff
Big task, want to save tokens	/ccc-orchestrate
Not sure what state the repo is in	/ccc-xray
Need parallel agents on independent slices	/ccc-fleet
Ready to release	/ccc-ship
